

Everyday Peanut Feeder

Tips & Advice:

Designed for peanuts

This feeder has been designed with safety in mind, and so features small feed holes to prevent birds from choking on larger pieces.

How To Use

Simply unscrew and remove the lid and pour or scoop peanuts into the top. Ensure lid is securely in place before hanging the feeder up. Hang the feeder from a tree, dining station or a universal feeder hook.

Feeding Tips

With food resources scarce now, it is essential to feed garden birds all year round. Put out food at the start of the day to ensure that birds can replace the energy they have lost overnight. Locate feeders near cover, so that the birds have a safe place to retreat to that is away from predators. Always provide fresh, clean water.

Storage & Hygiene

Always ensure wild birds have plenty of fresh, clean water for drinking and bathing. Clean feeding and drinking areas regularly with a mild disinfectant. Keep food fresh and dry, removing any wet food to prevent the spread of bacteria and diseases. Not suitable for human consumption. May contain nuts. Keep packaging away from children to avoid suffocation. Store in a cool dry place away from pets or pests. Best used within 3 months of opening.
