

## Complete Bird Table Assembly Instructions

Philips screwdriver is required.

1. Attach 4 x roof supports to table base by inserting 4x4cm screws.
2. Place roof section on to supports and insert 4x4cm screws.
3. Connect the stem top and bottom joint using 4x4cm screws.
4. Attach 2 x base supports to the main stem using 1x8cm screw.
5. Attach 4 x leg supports to the stem using 4x4cm screws
6. Attach 4 x legs supports to base supports using 4x4cm screws.
7. Place built table head on to the stem pad and attach using 2 x washers and wing nuts.
8. Simply add Peckish Bird Seed Mixes or Peckish Suet Cakes.

### Storage & Hygiene

Always ensure wild birds have plenty of fresh, clean water for drinking and bathing. Clean feeding and drinking areas regularly with a mild disinfectant. Keep food fresh and dry, removing any wet food to prevent the spread of bacteria and diseases. Bird seed not suitable for human consumption. May contain nuts. Keep packaging away from children to avoid suffocation.
